

STATEMENT ON THE U.S. CAPITOL ATTACK

Like many of you, we saw images of Pro-Trump supports storming the U.S. Capitol while causing injuries to law enforcement and destruction to government property.

We must call them what they are, and these individuals are Domestic Terrorists that attempted a coup of the U.S. Government. Their actions initiated by a sitting President are absolutely a threat to our Republic. Hearing in videos of them threatening harm to anyone who stood in their way and threats of death is disgusting. As a result of their actions, four individuals are now dead.

We must learn from this event and NEVER stand by and allow ANY elected official or candidate to demagogue or mislead the people. As the citizenry, we must ensure to protect our Republic and the Democracy that we all support. Be involved and stand up against those that seek to undermine it at the local, state, and federal levels.

Never in my life did I believe I would see what we saw yesterday, but it gives me that we see the need to have a tough and serious conversation on moving our nation forward. Thank you to all the law enforcement and military for their service.

God Bless the United States.
